

REINDEER HUSBANDRY AND BARENTS 2030

IMPACTS OF FUTURE PETROLEUM DEVELOPMENT ON REINDEER HUSBANDRY IN THE BARENTS REGION

The future for reindeer husbandry in the Barents region is highly dependent on the availability of grazing land. Extensive oil and gas development will likely lead to loss of vital ranges, in particular coastal summer pastures and calving grounds. Reindeer husbandry and Barents 2030 presents new potential scenarios for reindeer husbandry.
